**No. 214**

---

**Introduced by Assembly Member Weber**  
(Coauthor: Senator Skinner)

January 24, 2017

---

An act to amend Section 66025.93 of, and to add Section 69519.3 to, the Education Code, and to amend Section 18901.11 of the Welfare and Institutions Code, relating to postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

AB 214, as introduced, Weber. Postsecondary education: student hunger.

(1) Existing law establishes the California State University, under the administration of the Trustees of the California State University; the University of California, under the administration of the Regents of the University of California; the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges; and independent institutions of higher education as the 4 segments of postsecondary education in this state.

This bill would express the intent of the Legislature to enact legislation to reduce the incidence of hunger and homelessness among college students in California.

(2) Existing law requires each public and private postsecondary educational institution that is located in a county that participates in the Restaurant Meals Program to apply to become an approved food vendor for the program, if the institution operates any qualifying food facilities on campus, or to provide contracting on-campus food vendors with specified information about the program.

This bill would provide definitions of “on-campus food vendors” and “qualifying food facility” for purposes of this provision.

(3) Existing federal law provides for the Supplemental Nutrition Assistance Program (SNAP), known in California as CalFresh, formerly the Food Stamp Program, under which supplemental nutrition assistance benefits allocated to the state by the federal government are distributed to eligible individuals by each county. Under existing law, households are eligible to receive CalFresh benefits to the extent permitted by federal law. Existing federal law provides that students who are enrolled in college or other institutions of higher education at least half time are not eligible for SNAP benefits unless they meet one of several specified exemptions, including participating in specified employment training programs.

Existing state law provides that, for the purposes of determining eligibility, certain educational programs, as determined by the State Department of Social Services, shall be considered employment training programs, thereby qualifying a student participating in one of those programs for an exemption, unless prohibited by federal law. Existing law also requires the State Department of Social Services, in consultation with representatives from other specified organizations, to establish a protocol to identify and verify all potential exemptions and to identify and verify participation in educational programs, including self-initiated placements, that would qualify a student for an exemption.

This bill would express legislative intent to clarify educational policies for purposes of improving access for low-income students to the CalFresh program. For purposes of the federal regulation, the bill would specify the definition of half-time college enrollment. The bill would also require the Student Aid Commission to provide written notice to recipients of Cal Grant awards who qualify for participation in the CalFresh program under the federal regulation.

This bill would require the Department of Social Services to maintain a list of programs identified pursuant to existing law because they meet the employment training exemption set in the federal regulation. The bill would require the list to include, but not necessarily be limited to, specified programs. The bill would also require the department to issue and maintain instructions for county human services agencies to verify exemptions to the CalFresh student eligibility rules for students who participate in these programs, as specified. To the extent that this provision would impose new duties on county human services agencies, it would constitute a state-mandated local program.

(4) Existing law requires the Department of Social Services to implement the provisions described in (3) above by all-county letters or similar instructions beginning no later than October 1, 2015, until regulations are adopted, and further requires the department to adopt regulations on or before October 1, 2017. Existing law also requires the department to seek and obtain federal approval, as specified, prior to publishing that guidance or regulation, if the United States Department of Agriculture requires federal approval.

This bill would adjust the dates for the implementation and adoption of regulations. The bill would delete the provision relating to federal approval.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.
